

# CT Single Head

## High Pressure Contrast Media Injection System

YOUR RELIABLE  
SYSTEM SOLUTION

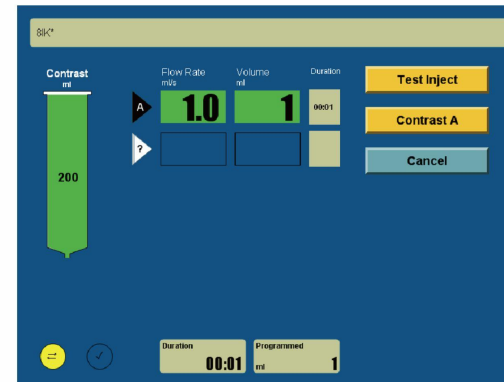

### Product Description

- Easy application, safe to use.
- 20 different protocols.
- Volume, Pressure, Flow rate and Delay time can be controlled for each protocol.
- Unique Pressure test device with patent, ensure the patient safety.
- Real time monitor the volume, phase and time changes during injection.

### Injector Head

- Auto filling system.
- Microscale or low speed functions for test injection.
- "Arm" button on Injector head.
- "Inject", "Stop" functions can be done on Injector head.
- Injector operation Status can be recognized in long distance through the indication light.
- 3-way adjustable injector head.

### Control Unit

- LCD monitor, easy to use and read.
- 8 buttons to complete the all functions.
- A compact control unit.

### On Line Operation

Can be connected with Image device for the preferable imaging. Use less Contrast Media and reduce the radiation.
